Conakry, Guinea, December 11 (Infosplusgabon) - Guinea on Sunday recorded 15 new positive cases of coronavirus following tests carried out on 194 samples, the National Health Security Agency (ANSS) announced on Monday in its daily bulletin.

It said that 22 patients hospitalized in treatment centres have been declared cured.

Since the declaration of the first case of the patient in the country last March, 13,097 people have tested positive against 12,004 cured and 76 deaths.
